13th June 2025 (No. 33)

1/2JP have enjoyed learning about what it is like to live and work in space. They used their ideas to create a space theme in all of our classroom areas.

Huge thanks to everyone who supported the Summer Fair this week. Thanks also to the PTA, staff and pupils for making it happen. The sun shone, it looked like everyone had fun and we made a profit of £1000 which is amazing! Diolch

EYW have been learning all about 'Our Body' and labelling a life-sized outline of one of their friends. They enjoyed reading 'Everybody has a body' and celebrating how they are all different.

EYJ have been finding out about postcards and their features this week.

1/2MH had a fun week exploring life in space and created our own design of aliens that we thought may live there.

4T have been exploring the features of newspaper articles. They have been cutting, sticking and adding information to create their own wacky fictional newspaper collages.

4J have continued to develop their curiosity by asking curious questions about everything and anything. They then sought to research those thoughts to uncover facts. They used this information to create their own curiosity cubes to display their findings in creative ways.

5C have begun an investigation to explore how the number of propeller turns affects how far boats can travel. It's been exciting to design and build the boats they'll be using for their tests.
